```java
package com.simpli;

interface First
{
    default void show()
    {
        System.out.println("Default First");
    }
}
interface Second
{
    default void show()
    {
        System.out.println("Default Second");
    }
}
public class TestClass implements First, Second
{
    public void show()
    {
        First.super.show();
        Second.super.show();
    }
    public static void main(String args[])
    {
        TestClass ob = new TestClass();
        ob.show();
    }
}
```

```
<terminated> TestClass [Java Application] C:\Program Files\Java\jdk-15.0.1\b
Default First
Default Second
```
