```java
class MyException extends Exception{
    String str1;
    MyException(String str2) {
        str1=str2;
    }
    public String toString(){
        return ("MyException Occurred: "+str1) ;
    }
}
class Example2{
    public static void main(String args[]){
        try{
            System.out.println("Starting of try block");
            // I'm throwing the custom exception using throw
            throw new MyException("This is My error Message");
        }
        catch(MyException exp){
            System.out.println("Catch Block") ;
            System.out.println(exp) ;
        }
    }
}
```

java - Eclipse IDE

roject   Run   Window   Help

Console   Coverage

<terminated> Example2 [Java Application] C:\Program Files\Java\jdk-15

Starting of try block
Catch Block
MyException: This is My error Message
